

# FSC™ Certification

**F.S.C** (Forest stewardship council) is the most prominent and needed certification for Paper industry. Apart from export markets now in domestic markets, corporate clients, Big Companies, Associations and Retailers are demanding FSC certified products. With FSC certification we have the edge over the fast growing market.

The FSC-COC (Forest Stewardship Council-Chain of Custody) Certification is necessary for all those who are using directly or indirectly wood as their raw material (Pulp, Paper, Waste Paper, Wood, etc.).

This certification is mandatory for exporting products from India.

**Paper Industry:** All Companies Manufacturing Pulp and Paper from (Virgin Fibre, Imported Pulp, Waste paper etc.) and who are having sales in Domestic and International markets now have to take FSC certificate. The new Sustainability and Environmental laws and compliances within country and in overseas markets make this FSC certification a necessity for our business.

After getting **FSC** certified **Shree Ajit Pulp And Paper Ltd** is among the top companies who are having platinum standard of global compliances and environment sustainability.

**FSC** certification is till date globe's biggest GO green certificate. After certification we have been using the world's top registered trademark logo of **FSC** on our products which gives satisfaction to the ultimate end consumer. We use the **FSC** logo on your products and promotions. The logo is having the biggest brand value across the globe today.
